

معرفی سرویس‌های پُل، بان و کارا

w w w . c y b e r t d e . c o m

محصولات

- **Pol پُل** برای خدمات ایجاد شبکه امن بر پایه متدلوژی ZTNA
- **BAN بان** برای ارزیابی سرویس مدیریت شبکه بر پایه UEM
- **KARA کارا** برای ایجاد یک پلتفرم جامع اطلاعاتی در سازمان

خدمات

- میزبانی اطلاعات یا سرورها در امن‌ترین دیتاسنترهای بین‌المللی
- تامین لایسنس‌های نرم‌افزاری خاص
- برگزاری دوره‌های آموزشی فنی (Cisco، Mikrotik و....)
- ارزیابی مشاوره در طراحی، پیاده‌سازی، مدیریت و امنیت شبکه
- ارزیابی مشاوره در حوزه مدیریت فرآیندهای سازمانی

معرفی سرویس پُل - POL ◀

چرا سرویس پل

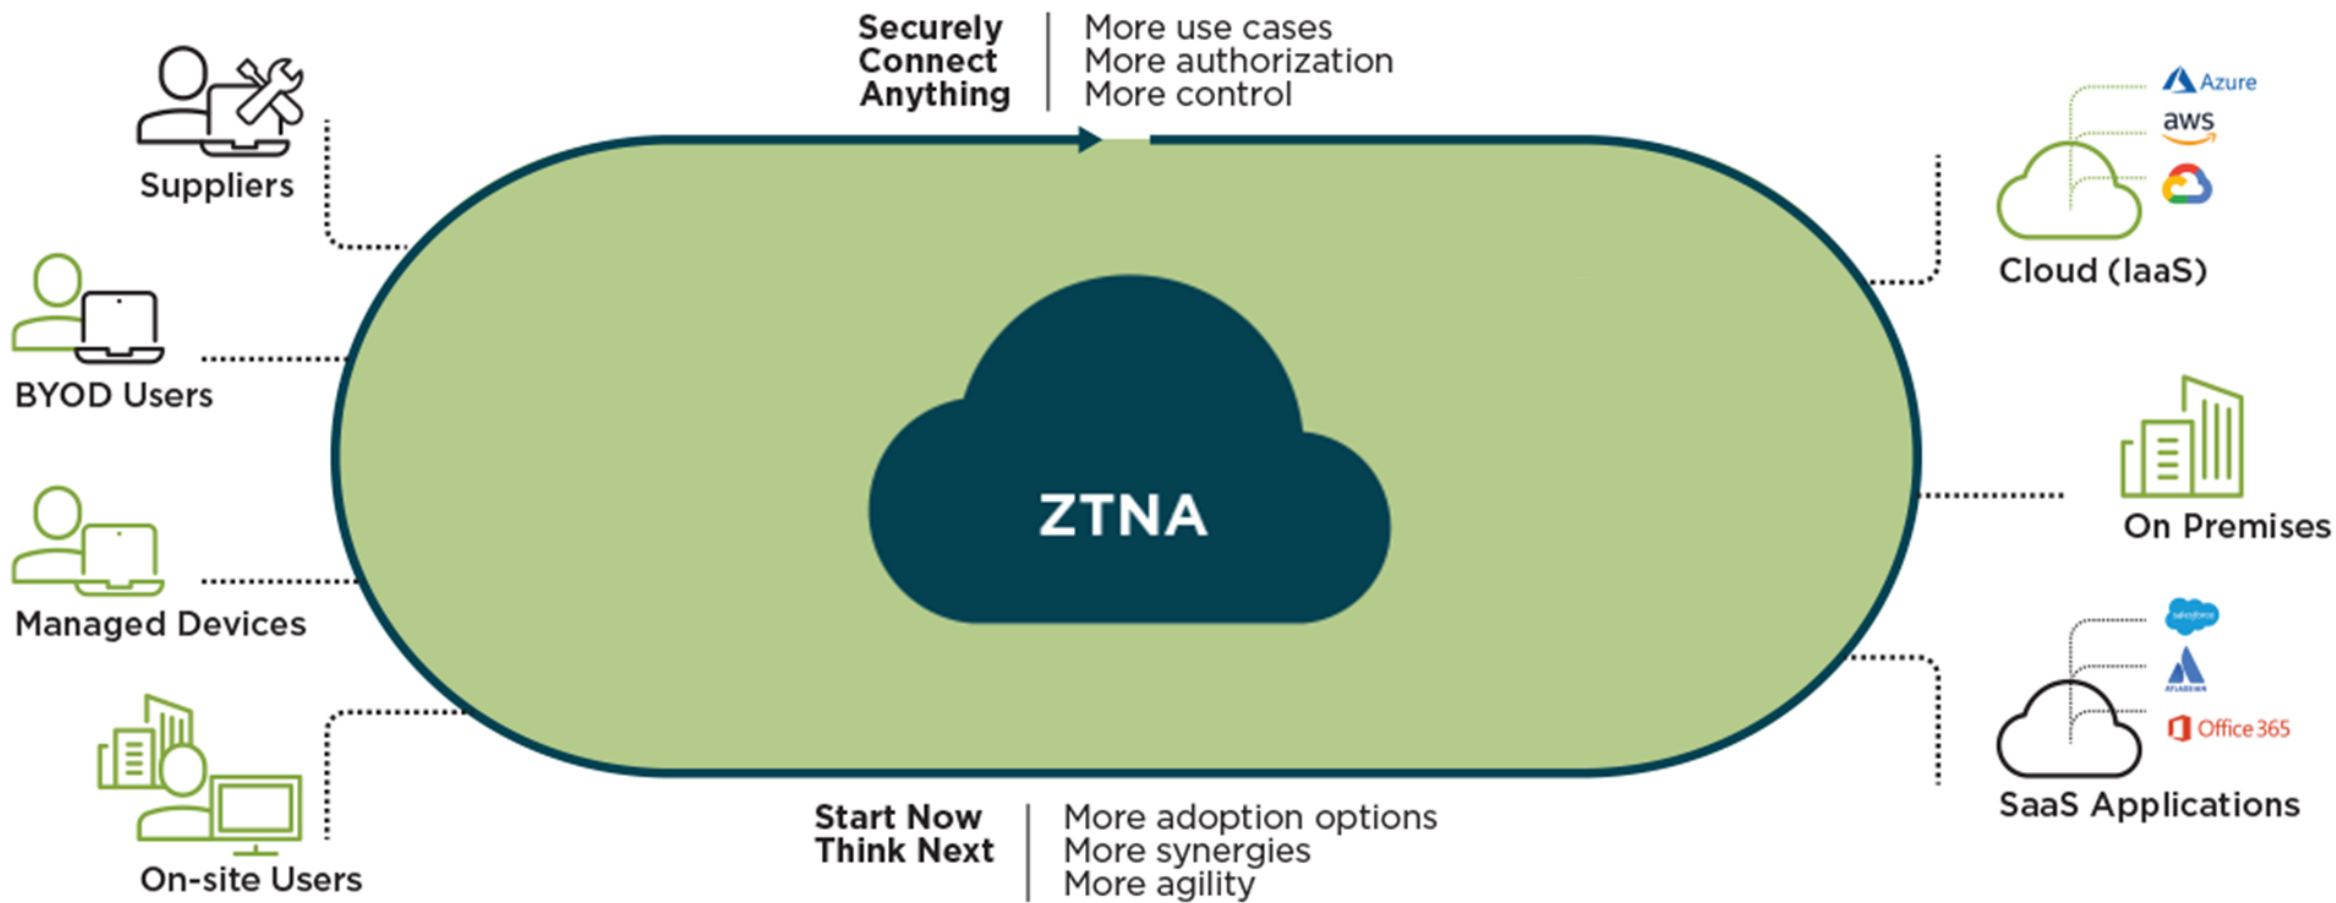

- پشتیبانی از تکنولوژی ZTNA
- عدم نیاز به خرید، راه‌اندازی و نگهداری سرور
- دسترسی امن کاربران سازمان از راه دور منابع
- ایمن سازی در اتصال به شبکه‌های Wi-Fi عمومی
- مقیاس پذیری و توسعه آسان شبکه
- محافظت از داده‌ها با رمزنگاری
- انطباق با مقررات و قوانین
- پشتیبانی نسخه های ۴ و ۶ آدرس IP
- پشتیبانی فنی ۲۴*۷
- امکان ارایه سرویس به صورت On premise در داخل سازمان

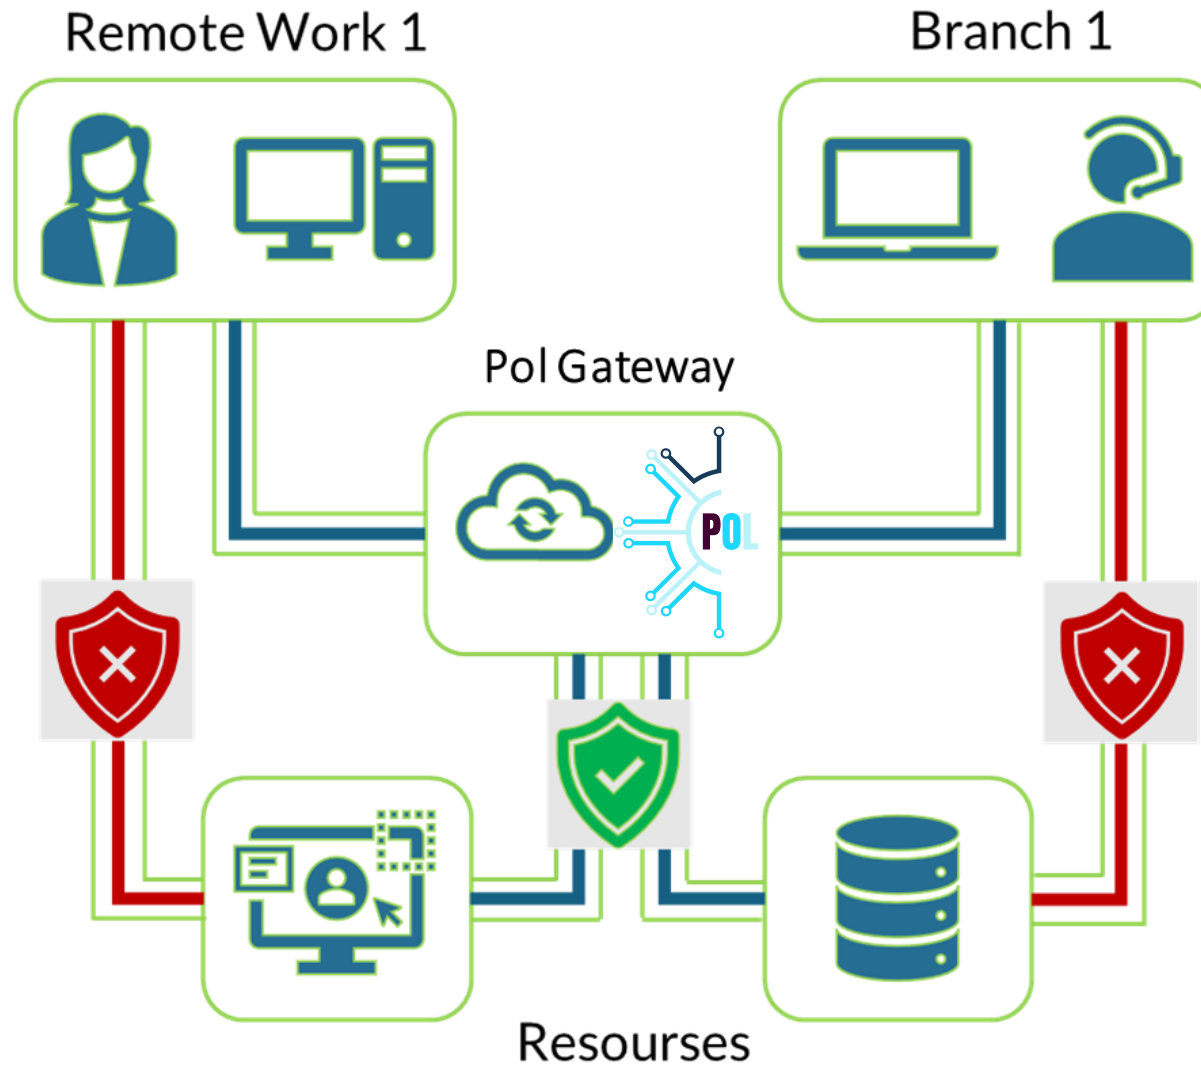

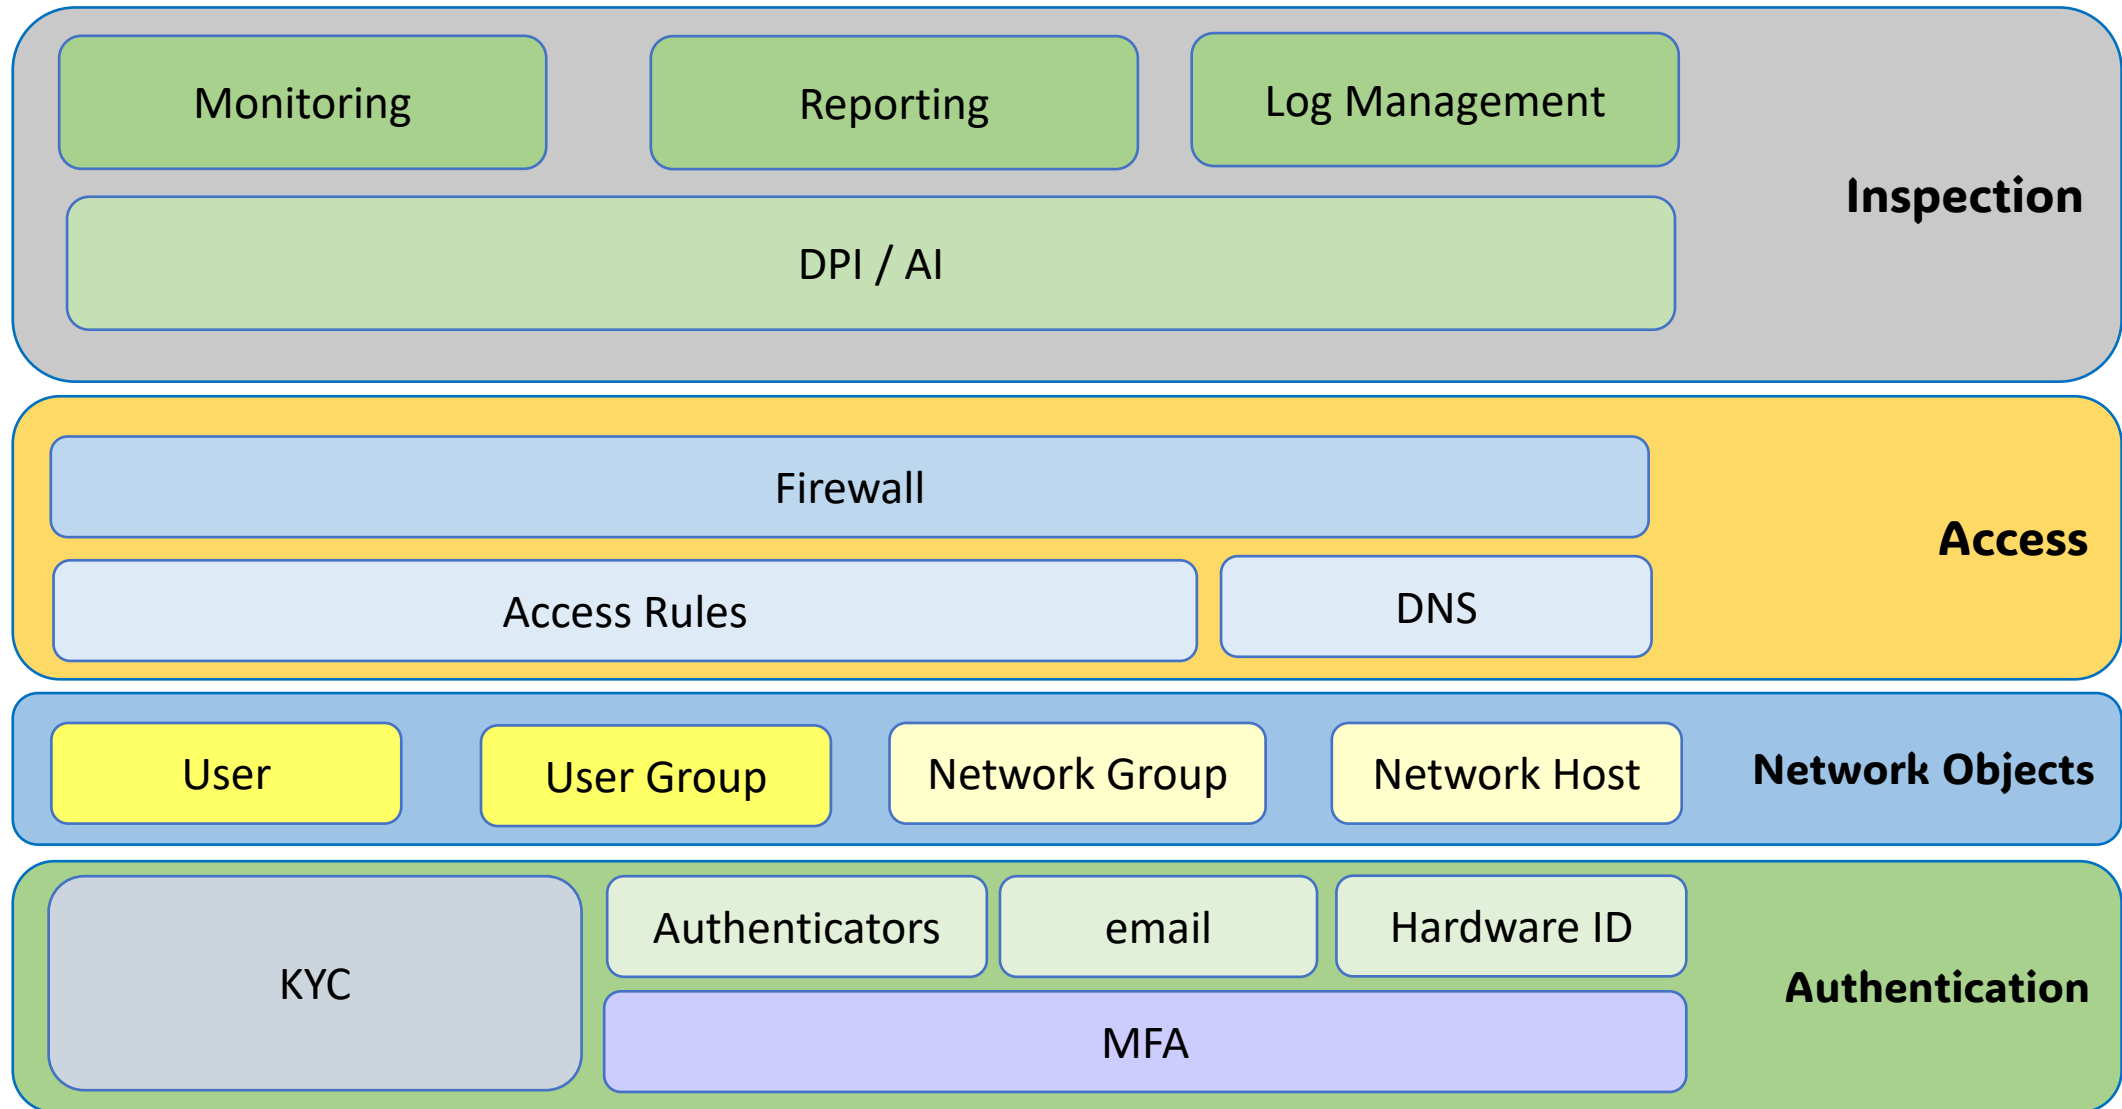

ساختار شبکه‌های مبتنی بر ZTNA

شماریک سرویس پل

POL Technical Specifications

Spec.	Description
Supported Protocols	TLS 1.2, 1.3
Authentication Methods	Password, MFA (e.g., SMS, TOTP, Security Key)
Cipher Method	AES256
Deployment Options	Cloud-based, On-premise
Scalability	Supports a wide range of user and application needs, tested for 3,000 concurrent connections
User Capacity	Proven to support over 2,000 users for a single Gateway

Key Features

Multi-Factor Authentication (MFA)

Add an extra layer of security by requiring users to provide a second verification factor, such as a code from their phone, in addition to their password.

Data Encryption

All data transmitted through the POL tunnel is encrypted using the industry-standard AES256 cipher, protecting it from unauthorized access even if intercepted.

BYOD Support

Securely access company data on personal devices without compromising personal information.

Third-Party Access Control

Grant limited access to specific resources for vendors, contractors, or other third parties.

Log Management

POL generates detailed logs of user activity and security events, enabling administrators to track access attempts and troubleshoot any issues.

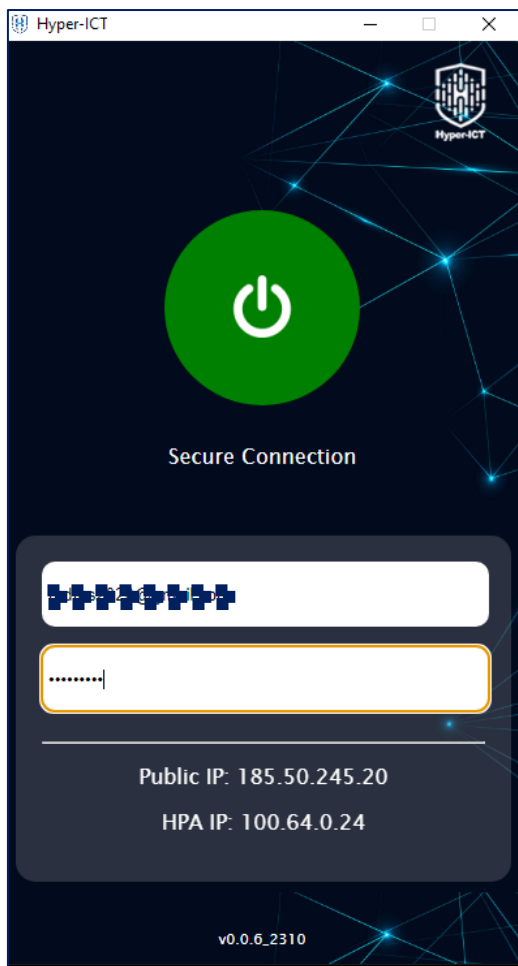

Safe DNS Integration

Integrate POL with a secure DNS solution, such as Safe DNS or Hyper ICT DNS, to block phishing attempts and protect users from malicious websites..

معرفی سرویس بان - BAN ◀

چرا سرویس بان

- مدیریت دستگاه‌ها و تجهیزات نقطه پایانی
- اعمال خط مشی‌های امنیتی قوی و کاهش تهدیدات سایبری
- کاهش هزینه‌ها و افزایش بهره‌وری فعالیت‌های فناوری اطلاعات
- کاهش زمان خرابی تجهیزات و شبکه
- پشتیبانی فنی ۲۴*۷
- امکان ارایه سرویس به صورت On promis در داخل سازمان

ماژول‌های نرم افزار بان

- این نرم افزار با بهره‌گیری از ۶ ماژول به صورت یکپارچه، طیف کاملی از خدمات را ارائه می‌دهد.
- گفتنی است ماژول **ATM** این نرم افزار، به طور اختصاصی برای مدیریت و نظارت بر دستگاه‌های خودپرداز و برای بانک‌ها طراحی شده است.

1- Client Management Module

BAN is a unified endpoint management and security solution that enables to manage end-user computers and servers at the same time from a central location regardless of operating system.

Features & Capabilities

Create Alerts for Critical Levels

In Compliance with Legislative Regulations; PDPL and GDPR

Real-time System Performance Tracking

Software and Hardware Inventory Management

2- Network Management Module

Network Management is a solution that enables all network switches, routers, access points and all devices that can receive IP addresses to be monitored, managed and configured from a single platform, regardless of brand and model.

Features & Capabilities

Location Free Network Device Tracking

Multiple Vendor Support Network Device Tracking

Network Monitoring on Map

Enterprise-Specific Identity Indexing

3- PAM Module

It is a security solution that can be easily installed in on-premise or cloud structures, providing administrator access with multi-factor authentication (MFA) based on workflow-based access requests, approvals and password vault to hide and isolate privileged accounts where cyber attacks are most common.

Features & Capabilities

Reduction the Attack Area

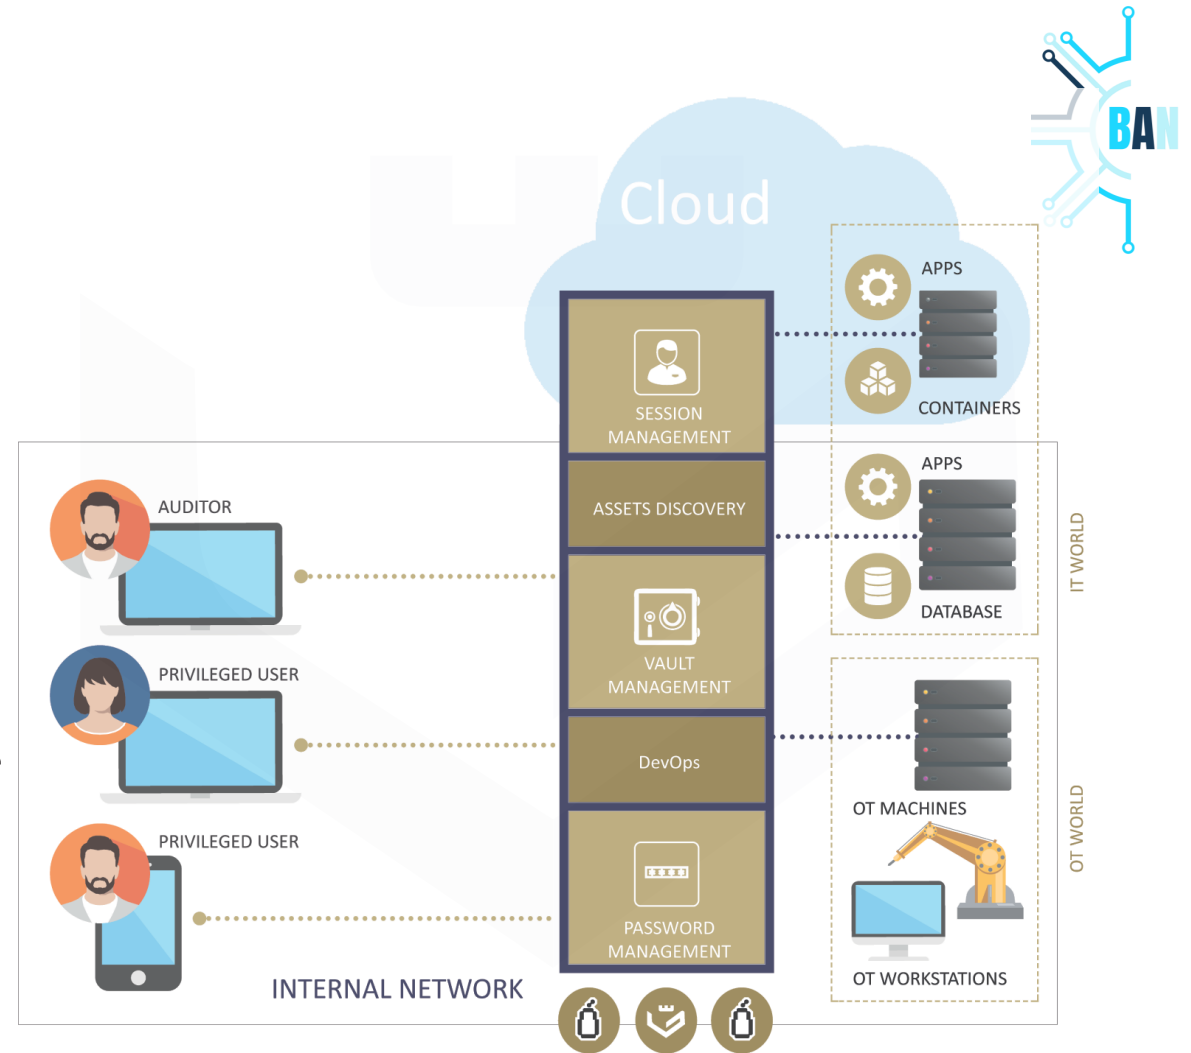

Checking Sessions

Manage Secret Strings

Managing Audit Activities

4- SOC* Module

The SOC module enables monitoring of system performance, management and security in a live environment with instant notifications with advanced and editable dashboards on a single screen.

Features & Capabilities

Real-time System Performance Tracking

Comprehensive and Detailed Monitoring

Incidents and Warnings on Map

Create Alerts for Critical Levels

5- Patch Management Module

Patch Management performs complete and automated management and quickly responds to computer threats as it detects vulnerabilities and distributes patches.

Features & Capabilities

Comprehensive Reporting

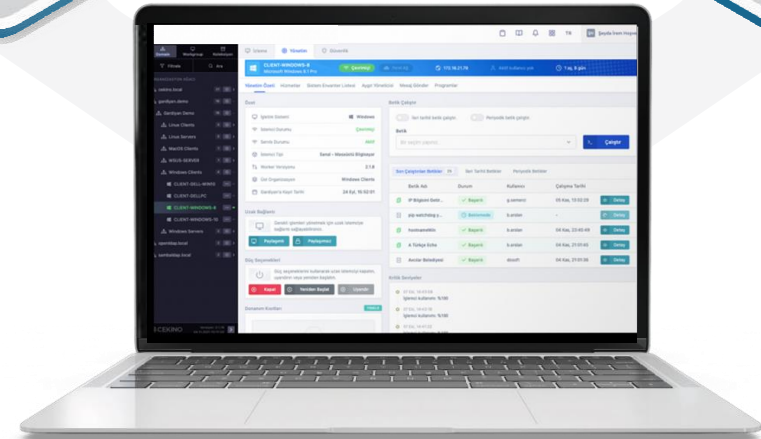

Increasing Quality of System Performance

Quicker Solution Through Patch Classification

Simultaneous Patch Distribution

معرفی سرویس کارا - KARA ◀

چرا سرویس کارا

سازمان‌ها با چالش مدیریت ابزارهای مختلف برای انجام کارهای روزمره دست و پنجه نرم می‌کنند. ایمیل، تقویم، اشتراک‌گذاری فایل، جلسات آنلاین و چت‌های سازمانی، تنها بخشی از این ابزارها هستند. هرچند نرم‌افزارهای متعددی برای این نیازها وجود دارد، اما عدم یکپارچگی آن‌ها، کارکنان را مجبور به استفاده از چندین ابزار و تیم IT را درگیر نگهداری از سرویس‌های مختلف می‌کند.

سرویس کارا راه‌حلی برای این مشکل است. این سرویس بر پایه یکی از قدرتمندترین نرم‌افزارهای متن‌باز در حوزه همکاری محتوایی توسعه یافته و امکاناتی مانند مدیریت ایمیل، تقویم، اشتراک‌گذاری فایل، برگزاری جلسات و چت را در یک پلتفرم واحد فراهم می‌کند.

KARA Module

 **File**
Sharing and securing
of your files & pictures

 **Office**
Documents directly
in your browser.

 **Talk**
Secure video,
text chat

 **Deck**
Team planning and
project organization

 **MCC**
Easy mail,
calendar, contact

 **Forms & Polls**
Simple surveys
& questionnaires

 **Tasks**
Personal planning
and daily planner

 **Assistant (AI)**
It allows users to
launch AI

1- File Module

Secure cloud storage and file sharing software for easy sync, sharing and collaboration on your files.

Features & Capabilities

- *File Versioning introduces viewing and side-by-side comparing files*
- *Tagging files for automated work or files protection*
- *Secure file and folder sharing*
- *File locking to protect files from alteration while editing*
- *Flexible access permissions*
- *Reinforced link protection and expiration dates*
- *Editing and co-editing with office suite integration*
- *Client-side protection of files and end-to-end encryption*
- *Microsoft Outlook, SharePoint, Windows Desktop, MS Office online server, Teams and Slack integrations available.*

2- Talk Module

Keep your online conversations, meetings and video conferencing private and secure with KARA Talk module.

Features & Capabilities

- *Show "Talking time" in participants list during a call*
- *Join the same conversation and call from multiple devices*
- *Self-hosted, no leaking of metadata*
- *Interactive widgets, message editing and federated chatting*
- *Jump start conversations in breakout rooms*
- *Assign general and individual permissions to participants*
- *In the sidebar you can find an overview of the latest shared items*
- *Individual and group calls & chat*
- *Integration with KARA Files*

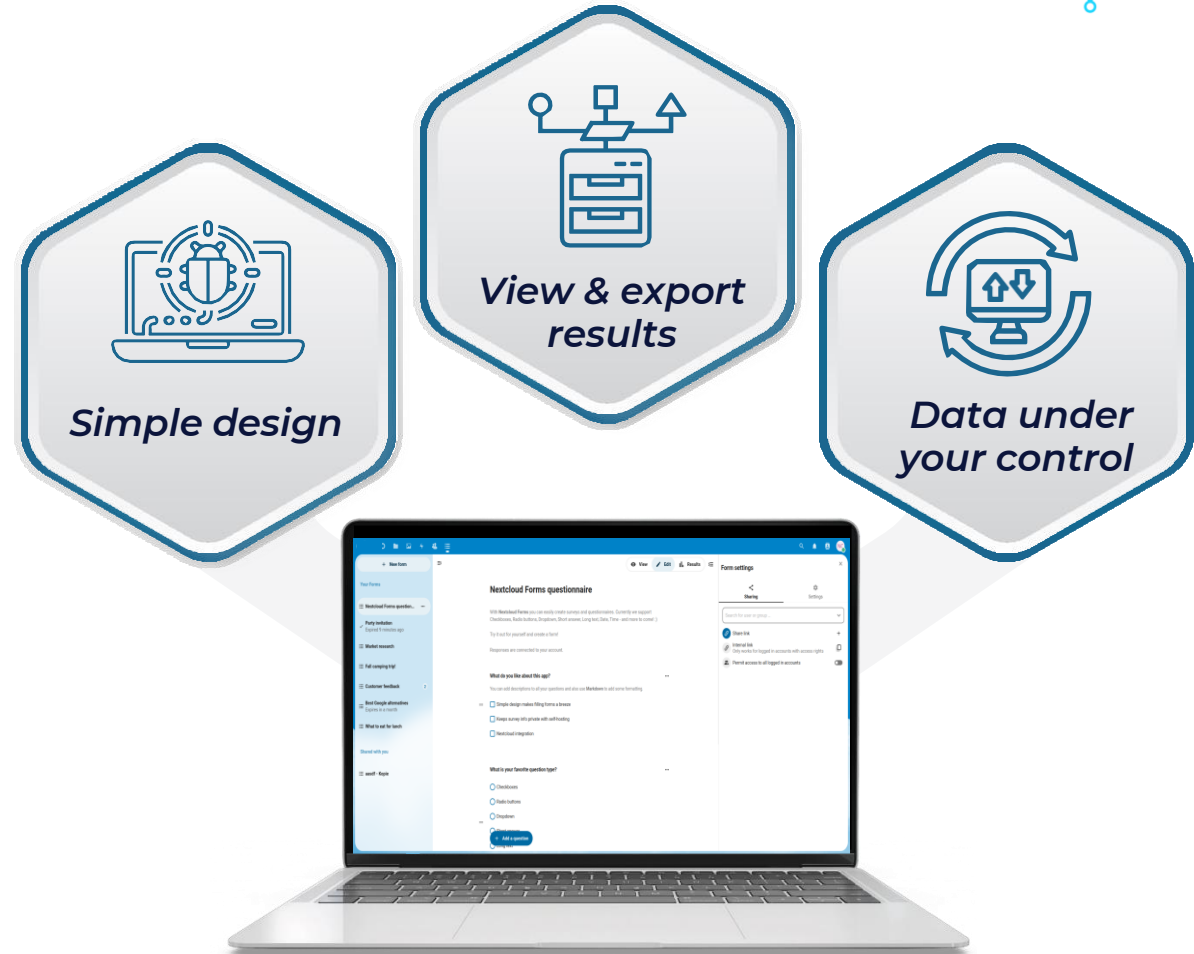

3- Forms & Polls

Simple surveys and questionnaires, self-hosted!

Features & Capabilities

- *Simple design: No mass of options, only the essentials. Works well on mobile of course.*
- *View & export results: Results are visualized and can also be exported as CSV in the same format used by Google Forms.*
- *Data under your control! Unlike in Google Forms, Type form, Doodle and others, the survey info and responses are kept private on your instance.*
- *Connect to your software: Easily integrate Forms into your service with our full-fledged REST-API.*
- *Get involved! We have lots of stuff planned like more question types, collaboration on forms, and much more!*

4- Deck

Manage your tasks and projects in our Kanban style Deck board to collaborate with colleagues on Deck cards, share files and more with this productivity app

Features & Capabilities

- *Add your tasks to cards and put them in order*
- *Write down additional notes in markdown*
- *Assign labels for even better organization*
- *Share with your team, friends or family*
- *Attach files and embed them in your markdown description*
- *Discuss with your team using comments*
- *Keep track of changes in the activity stream*
- *Get your project organized*

5- Tasks

Manage your tasks and projects in our Kanban style Deck board to collaborate with colleagues on Deck cards, share files and more with this productivity app

Features & Capabilities

- *Add and delete tasks*
- *Edit their title and description*
- *Start and due dates*
- *Mark them as important.*
- *Shared between users*

6- Calendar

Efficiently plan and organize meetings and events in Calendar, maximizing productivity and saving valuable time

Features & Capabilities

- *Create and share multiple calendars*
- *Integrate external calendar resources (Web Cal)*
- *Appointment scheduling, resource booking & Talk integration*
- *File attachments*
- *Assign attendees as Talk room participants when creating a room from an event*
- *Create a Talk room with each appointment in Calendar*
- *Holiday calendars can now be set up*
- *Improve handling of links for online events in Calendar*
- *Create an associated Talk room when booking a meeting with just one click*

7- Mail

Automatically upload files to replace large attachments or integrate Calendars and Contacts in Microsoft Outlook.

Features & Capabilities

- *Search in message body in mail*
- *Send & receive encrypted mails*
- *Outlook and Teams integrations*
- *Deleting mails in Trash after x days*
- *Shared mailboxes and S/MIME support*
- *Multiple accounts with unified, smart inbox*
- *Travel itinerary recognition and Calendar integration*
- *Supports end-to-end encryption using OpenPGP and S/MIME*

8- Office

Edit office documents directly in your browser. organized on KARA Spreadsheet. Thousands of functionalities, formulas, and tools are at your fingertips for the most precise spreadsheets.

Features & Capabilities

- *Document editing*
- *Fully collaborative*
- *Intuitive*
- *Real-time cursor tracking*
- *Compatible with Microsoft office*
- *Real-time cursor tracking*

9- Assistant (AI)

It allows users to launch AI tasks, be notified when they finish and see the results. The assistant also appears in other apps like Text to easily process parts of a document.

Features & Capabilities

- *In the assistant, the list of available tasks depends on the available providers installed via another module.*
- *This means you have complete freedom over which service/software will run your AI tasks.*
